

What is Envirogel?

- **ENVIROGEL** is the best alternative to blue (cobalt chloride) indicating silica gel
- **ENVIROGEL** displays an **ORANGE/YELLOW** colour when active (capable of adsorbing water/moisture).
- During use and operation the colour changes to **GREEN** as the desiccant becomes saturated
- **ENVIROGEL** is the safe non-carcinogenic alternative to blue (cobalt chloride) silica gel

Indicating—Silica Gel
